ABOUT BELLA PELLA

BELLA PELLA— the “beautiful skin” line— began producing handcrafted beauty products in 1999. Despite rapid growth, the Montreal company continues to make most of its products by hand, using rigorously natural and traditional methods. Each product is conceived as “food for the skin,” and cooked up by creative co-owners Jordana Ogly, Evelyn Ogly and Line Pelletier. The result: an ever-expanding line of quality ecological household products, including the signature scented soaps, and other delights for men and women... and even the spa-going canine.
