»» REGEN-16: THE ONLY ANTI-AGE BREAKTHROUGH TARGETING 16 MECHANISMS OF ACTION

At the core of IDC skincare formulations is a powerful proprietary technology called Regen-16. This regenerating cocktail acts on the 16 main causes of skin aging and helps restore the skin's youthful radiance. Various active ingredients are added to the Regen-16 base in order to target specific areas, such as deep wrinkles, eye contour, etc. IDC products have the highest concentrations of cosmetics actives: up to 40%. An integrated, multi-targeted approach to skin care.
